# Deck Design Options

Below you'll find a range of boards available to you while you plan your new TimberTech deck. Start by choosing the color and wood grain pattern that speaks to your style.

### COLOR NUANCES

With TimberTech, you have a wide range of color options to choose from. These colors are found in real wood and feature colors on the spectrum of **solid, single colors** for a painted wood look to a more dramatic **color-blending of highlights and lowlights** that resemble premium hardwoods. The degree of color blending differs by collection.

**SOLID**  
No variation of color.

**HIGHLY BLENDED WITH  
UNIQUE COLORING**

Go Against the Grain<sup>®</sup>

## Love my new TimberTech AZEK deck!

We chose AZEK because of its durability, realistic look, and color choices compared to other products. We chose the Vintage Collection® and couldn't be more thrilled with the outcome. The deck is both functional and a work of art! It feels more solid than wood ... And looks like real wood. The best part is that we won't have to stain it every year, saving us a lot of time and hassle.
